

from Bobak Razavi to everyone: 6:07 PM

The groundbreaking video was amazing. Loved it!

from Emily Reimer to everyone: 6:21 PM

3!

from malika to everyone: 6:21 PM

I like structure #3 the double helix tower

from eric.weiss to everyone: 6:22 PM

3

from Bobak Razavi to everyone: 6:22 PM

3

from John Mountain to everyone: 6:22 PM

1

from stewarte to everyone: 6:22 PM

3 but i wont likely be playing on it :)

from Karen Welle to everyone: 6:22 PM

I like 3. Its height makes it visible and bold, and also looks/feels like a true climbing experience.

from Bobak Razavi to everyone: 6:22 PM

Strong concur with Karen.

from Patty to everyone: 6:23 PM

number 3

from John Mountain to everyone: 6:23 PM

Can you show where the skate park will be on the largwr map? Spatially challenged on the previous slide!

from Karen Welle to everyone: 6:24 PM

Could you slow this down? It's hard to know how this is different or what you're talking about.

from John Mountain to everyone: 6:25 PM

Skate park specifically

from Karen Welle to everyone: 6:25 PM

I mean the Park C update.

from John Mountain to everyone: 6:27 PM

Can you repeat directions of N/S/E/W?

from Maureen Michalski (internal) to everyone: 6:28 PM

North is to the left

from zurow to everyone: 6:28 PM

Perhaps consider inclusion of public art incorporated into the skate park, even the playground, reflecting the former Ford Plant and its legacy to Highland. Also include public art in the nature play area reflecting the heritage of the Dakota in this area. Is the Public Art Ordinance triggered? 1% of "eligible" project costs to be used for public art.

from Patty to everyone: 6:29 PM

So skate is at the site (For and Miss River Road?

from stewarte to everyone: 6:30 PM

i can touch on public art in a bit

from Emily Reimer to everyone: 6:32 PM

Second the comment on including something to denote Dakota land/heritage in the park.

from stewarte to everyone: 6:32 PM

We have reached out to tribal representatives to discuss public art and interpretation.

from John Mountain to everyone: 6:35 PM

Do you know how big the dog park is?

from Frank Jossi to everyone: 6:35 PM

Are public restrooms part of these parks?

from stewarte to everyone: 6:36 PM

we do not have any restroom buildings in the parks. But we can definitely consider the possibility of having satellites with enclosures.

from eric.weiss to everyone: 6:37 PM

sometimes a kiosk for news/notes can be helpful at a dog park. maybe that's included in the shade structure. really glad to see shade considered at the dog park!

from Karen Welle to everyone: 6:37 PM

I thought dog park was in D, and the adult workout space was here. Maybe just not understanding orientation?

from Frank Jossi to everyone: 6:37 PM

seems like there should be someplace available for both adults and children; otherwise they will use restaurant facilities or whatever they can find

from stewart to everyone: 6:37 PM

Park B has a small dog relief area but the plan has included dog park in park C.

from Mackenzie Alberts (internal) to everyone: 6:38 PM

The dog park is roughly 14,500sf

from Emily Reimer to everyone: 6:40 PM

Loving the nature play examples!

from Bobak Razavi to everyone: 6:40 PM

Agree with Frank's comment: "seems like there should be someplace available for both adults and children; otherwise they will use restaurant facilities or whatever they can find"

from Patty to everyone: 6:41 PM

Agree re restrooms

from zurow to everyone: 6:41 PM

Can we get access to these chat notes to review later? This is the only way we are really engaging with other members of the committee. Thank you!

from Mackenzie Alberts (internal) to everyone: 6:41 PM

Of course!

from zurow to everyone: 6:43 PM

Restrooms needed, our small group did note this in our recommendations. Also drinking fountains. Restrooms are available in Minnehaha Park at pavilions.

from stewart to everyone: 6:43 PM

we will have drinking fountains and have located them. Maybe Terry can show where those are.

from Emily Reimer to everyone: 6:43 PM

Would make sense to add a drinking foundation by the adult exercise area

from stewart to everyone: 6:44 PM

and water bottle fillers

from Michelle Doyle to everyone: 6:45 PM

Did you consider other ground material, such as the synthetic foam stuff that is at some playgrounds? Wood chips don't seem that friendly for exercise.

from stewarte to everyone: 6:45 PM

we can look at different materials as we get refined costing options.

from eric.weiss to everyone: 6:46 PM

I would assume people relaxing in a hammock (reading, napping) may prefer a space somewhat removed from the street and those actively exercising? Is there an opportunity to move the hammock area?

from zurow to everyone: 6:46 PM

When the plans are shared, is it possible to identify the restrooms and drinking fountains in ALL the park areas. Maybe with a color so we can see them easily? Thank you

from stewarte to everyone: 6:46 PM

great idea to make sure those are visible.

from Michelle Doyle to everyone: 6:47 PM

the terracing is a good idea.

from Emily Reimer to everyone: 6:47 PM

Cute bridge!

from Frank Jossi to everyone: 6:48 PM

love the stairs down....

from eric.weiss to everyone: 6:48 PM

I love how people will be able to interact with the water and explore!

from Michelle Doyle to everyone: 6:48 PM

I like that design. will the creek be wading friendly?

from Emily Reimer to everyone: 6:49 PM

Yeah I think I found my favorite spot!

from Michelle Doyle to everyone: 6:50 PM

great! I'm sure my children won't be able to stay out of it.

from Karen Welle to everyone: 6:53 PM

Wow!

from stewarte to everyone: 6:54 PM

hold on!

from Frank Jossi to everyone: 6:58 PM

You will daylight paths underneath River Road, right?

from Frank Jossi to everyone: 6:59 PM

Got it

from eric.weiss to everyone: 6:59 PM

this would be an amazing addition!

from zurow to everyone: 7:00 PM

There is some pretty interesting geological features at this site - it would be nice to include attractive signage throughout the parks.

from Karen Welle to everyone: 7:00 PM

That would be amazing!

from Frank Jossi to everyone: 7:00 PM

love the design for Hidden Falls; find the money!

from zurow to everyone: 7:01 PM

LOVE this connection with path under MRB. THANKYOU

from Michelle Doyle to everyone: 7:01 PM

I agree, the design for Hidden Falls is wonderful!

from Bobak Razavi to everyone: 7:01 PM

Ditto!

from John Mountain to everyone: 7:05 PM

Do you have a sense of how often portions of the paths might get flooded?

from zurow to everyone: 7:06 PM

Thank you for sharing the Civic space information. Will this be managed, maintained by Highland Bridge Association? Will community organizations be able to use this space at no charge? Will local businesses be able to use space? Is any part of the Civic space operated by the City? Can you share a bit how you see this area managed?

from Maureen Michalski (internal) to everyone: 7:07 PM

I can speak to the question on management of civic spaces

from stewarte to everyone: 7:12 PM

did terry or anyone address JOhn MOuntain's question above?

from Mackenzie Alberts (internal) to everyone: 7:12 PM

Nick is going to talk to that here now

from John Mountain to everyone: 7:14 PM

Thanks Nick

from zurow to everyone: 7:21 PM

Would love to see a splash pad somewhere on this site . The community has been asking for this for some time. did not get at HHC playground upgrade. So maybe add splash pad (water feature) at Park B?
Interactive play

from Emily Reimer to everyone: 7:21 PM

I like the idea of doing a sensory or accessible playground.

from Frank Jossi to everyone: 7:22 PM

The creative option is very appealing.

from Emily Reimer to everyone: 7:22 PM

As an aside, the ship park near my childhood home is still fondly remembered. It is cool to do something creative!

from zurow to everyone: 7:23 PM

YES to pickelball, very popular.

from Frank Jossi to everyone: 7:23 PM

Fastest growing sport in the country

from Michelle Doyle to everyone: 7:23 PM

I also really like the creative option. Everyone loved the playground at expo that was removed recently.

from Emily Reimer to everyone: 7:24 PM

Seems like a good spot for hammocks! (For the kids and adults who prefer a book to sports ;))

from zurow to everyone: 7:25 PM

Creative play area, again maybe a "Ford Model T" like play area, or something that looks like a vehicle.
Honor Ford legacy.

from Emily Reimer to everyone: 7:27 PM

Another good spot for hammocks

from Michelle Doyle to everyone: 7:28 PM

Will you share this presentation so we can return to it? Is there a formal feedback mechanism for parks B and D, like we did for parks A and C?

from Karen Welle to everyone: 7:28 PM

Two pickleball/tennis courts?

from zurow to everyone: 7:28 PM

Are you including areas to lock bikes throughout the park?

from Frank Jossi to everyone: 7:28 PM

Like the labyrinth idea and community gardens approach in this section.

from Mackenzie Alberts (internal) to everyone: 7:28 PM

Yes we will have bike racks throughout the site

from John Mountain to everyone: 7:28 PM

It would be great to get a summary of the amenities for each park to see the big picture and how it lays out for the entire site

from Michelle Doyle to everyone: 7:29 PM

Agreed, a summary of amenities would be really helpful!

from zurow to everyone: 7:29 PM

Yes to what John said - list for each park appreciated

from Emily Reimer to everyone: 7:29 PM

I know someone else asked for visuals/colors for the bathrooms and water on the map, but it would be helpful to have colors and symbols for all amenities on the map

from Emily Reimer to everyone: 7:29 PM

The layout is always hard to imagine!

from Karen Welle to everyone: 7:29 PM

Like this big coordinated play space. Yes, modern, no, not historical, but very kid-centric. Would favor kids' fun over historical reference.

from Frank Jossi to everyone: 7:30 PM

Agree

from Bobak Razavi to everyone: 7:30 PM

Agree

from zurow to everyone: 7:30 PM

Where are you planning to place the Frieze taken from the Ford Site?

from stewarte to everyone: 7:30 PM

please feel free to email Mac or me with additional questions once this meeting is over.

from zurow to everyone: 7:30 PM

Shelter community gathering place - will this be in Park D?

from eric.weiss to everyone: 7:31 PM

looking great, thanks!

from zurow to everyone: 7:31 PM

Thank you for the recording and notes!

from Karen Welle to everyone: 7:32 PM

Great work.

from Bobak Razavi to everyone: 7:32 PM

Hooray for getting out to the site if COVID permits! Thanks for all of this!

from John Mountain to everyone: 7:32 PM

Thanks for all the hard work!!

from davidk to everyone: 7:32 PM

Thank you all!!

from Frank Jossi to everyone: 7:32 PM

Thanks....the parking garage above lifetime is a great place to view it...

from zurow to everyone: 7:32 PM

Can't wait to get out to the site! Thank you for all the work
